

### Sound Check:

- 1- check batteries on the 3 headsets and 2 handheld microphones
- 2- help performers wearing them : the mic should be as close as possible to their mouth
- 3- sound check consists of:
  - take one performer as a reference and level the volume with the human synth and the AI voice
  - level also the other two performers' voice
  - check volume of the two handhelds mics
  - mute all the mics except the mic for the feedback session (PM mic)
  - Switch off all of them

### Recording:

- 1- turn on the 2 zoom recorders
- 2- start recording
- 3- empty the SD card
